

## بيان بعناوين المشاريع البحثية - قسم طب الحيوان

### مادة الامراض الباطنة

#### البرنامج العام - الفرقة الرابعة **Medi**

- 1 . Evaluation of Azoturia as a multifactorial metabolic disease in equine with clinical and laboratory alterations
- 2 . Clinical and laboratory changes related to lactation tetany with reference to therapy
- 3 . Cross-matching technique in equine.
- 4 . Blood transfusion technique in equine.
- 5 . Failure of passive transfer in foal.
- 6 . Combined immunodeficiency disease in foal.
- 7 . Euthanasia of equine.
- 8 . Lung abscess in foal.
- 9 . Isoimmune hemolytic anemia of the newborn foal.
10. Foal heat diarrhea.
11. Dehydration and fluid therapy in foal.
12. Neonatal maladjustment syndrome.
13. Gastric ulceration in foal.
14. Colic in foals
15. Acute heart failure in equine.
16. Congestive heart failure in equine.
17. Peripheral circulatory failure of equine.
18. Anemia in equine.
19. Oedema in equine.
20. Pericarditis of equine.
21. Myocarditis of equine
22. Endocarditis of equine
23. Electrocardiography in equine
24. Venous thrombosis of equine
25. Core pulmonal of equine
26. Diagnosis of cystitis in mare.
27. Treatment of cystitis in horse.
28. Diagnosis and treatment of paralytic bladder in horse.
29. Diagnosis of urolithiasis in stallion.
30. Treatment of urolithiasis in horse.
31. Diagnosis of acute renal failure in horse.
32. Treatment of acute renal failure in horse.
33. Diagnosis of chronic renal failure in horse.
34. Treatment of chronic renal failure in horse.
35. Differential diagnosis between acute and chronic renal failure in horse.
36. Advanced methods for diagnosis of respiratory diseases in equine.
37. Drugs used for treatment of respiratory affection in equine.
38. Blood transfusion in equine.
39. Diagnosis, differential diagnosis and treatment of guttural pouch diseases in equine.
40. Advanced study on COPD in equine.
41. Diagnosis, differential diagnosis and treatment of roaring disease in equine.
42. Endoscope as diagnostic method of respiratory affections in equine.

43. Ultrasound as diagnostic method of respiratory affections in equine
44. Diagnosis, differential diagnosis and treatment of pneumonia in equine.
45. Diagnosis, differential diagnosis and treatment pleurisy in equine.
46. Advanced study on synchronous diaphragmatic flutter in equine.
47. Diagnosis and treatment of stomatitis in horse
48. Diagnosis and treatment of pharyngitis in horse
49. Diagnosis and treatment of oesophageal obstruction in horse
50. Diagnosis and treatment of gastritis in horse
51. Diagnosis and treatment of gastric dilatation in horse
52. Diagnosis and treatment of spasmodic colic in horse
53. Diagnosis and treatment of obstructive colic in horse
54. Diagnosis and treatment of flatulent colic in horse
55. Diagnosis and treatment of hepatitis in horse
56. Diagnosis and treatment of peritonitis in horses
